WARREN W. MERRILL,
W. E. CRAM,

Antrim, Feb. 17, 1909.

Auditors.

REMARKS

Since our last annual meeting, the school houses in Divisions 3, 4, 5, 6 and 7, have each had a second coat of paint (the first coat was put on last year) and the buildings in Divisions 1 and 3 have been shingled. This work, with a few minor repairs has used all of the money appropriated for this purpose.

In 1907, the school rooms in Division 1 were painted inside. We recommend that a sum of money be appropriated at the school meeting, to paint the inside of school rooms in Divisions 2, 3 and 4.

You will see in our Financial Report the sum of \$50.00 received for music. This sum was given, through the Superintendent, by some one unknown to the School Board, for the teaching of music in our schools. The conditions were that the School Board should appropriate \$50.00 more and engage a special teacher for music.

We deemed it advisable to accept the offer and are now teaching music under the supervision of a teacher who devotes one day each week to the Antrim schools. She is hired for the rest of the school year. It will also be noted that out of the \$250 appropriated for Superintendent's salary, we have used only \$187.50, having a balance of \$62.50 in our hands.

While we were able to make arrangements this

year for \$187.50, we may not be able to do so again. Therefore we advise appropriating \$187.50 for the coming year. This with the \$62.50 now on hand, will make \$250.00 available, if it is needed.

Respectfully submitted,

CHARLES F. BUTTERFIELD,
HENRY A. HURLIN,
CHARLOTTE M. HARVEY,
School Board.

FROM THE SUPERINTENDENT

Members of the School Board :—

My third annual report is herewith submitted. As has been the custom I will make only a brief statement. I would recommend, however, that a longer report be provided for in the future, as more details of interest to the community could be incorporated.

The interest of the townspeople in their schools was well shown at the school exhibition held at the close of the winter term last year. A display of the work done by the children was made at a considerable effort on the part of the teachers. The numbers present, amply justified this effort.

In addition to a suitable supply of text books in all the subjects, including supplementary reading, we have begun to provide more dictionaries for each room,

also drawing paper and crayon for the development of this constructive form of expression by the children.

By the kindness of a friend of the school, we have been provided with half the amount necessary for the salary of a special teacher in music. Miss Helen D. Daggett, a graduate of the Weaver system of teaching music, is serving as our teacher for the year. Instruction is given by her each week, and by the teachers throughout the week under her supervision. The work has been put on a good basis, and is progressing in a very satisfactory manner. I think it will be continued, for music definitely helps the other work by giving rest for it, and it provides for a chaste and elevating expression of the conditions, thus having a distinctly moral influence. I doubt if any one other subject will give our pupils, in future life, more enjoyment or social advantage.

Our school work is of a very satisfactory character in many respects. The pupils are well behaved, industrious and obedient. Especially to be noted is the splendid attendance record of the Center Schools during the thirteen weeks of the Fall term. Attendance in the Grammar room was perfect, and there occurred only one tardiness for the term. The Primary record was nearly as good. I am glad to say that this record is only the natural result of the strong interest in their work shown by the pupils and teachers.

Below the High School two teachers resigned from service, Mrs. Florence Rice, of Grade nine, and Miss Ethel C. Duncan, of the East School. In the High School both Principal Newell and his assistant obtained other positions and were succeeded by Leroy M.

Handy, of Worcester, Mass., and Miss Gertrude Neville, of Woburn, Mass. Miss Alice Markey was appointed to Grade nine, and Miss Cora Coffin, of Boscawen, to the East School. All these have proved successful in their work.

One of the bills before the Legislature at the present writing proposes to give State aid to certain towns, of three dollars per week, for each teacher in service who is a Normal School graduate, or who holds a State certificate. Three of our present teachers are Normal School graduates. As at present situated, this would mean \$99.00 per year for each teacher, or \$297.00 for the three, to come to the district as State aid. If the bill becomes a law, strong effort should be made to require our grade teachers in the village, at least, to meet these requirements. A further provision of the bill will give us from two to three dollars per week of schooling, or about \$66.00 to \$99.00 annually on the basis of pupils' attendance. A still further provision would give the town State aid to the amount of four dollars per week, in addition to that now given, or \$132 to \$144 per year toward the Superintendent's salary if one is employed. This above would make the net cost to the town under the present arrangement something less than \$50 per year for supervision. Here would be an addition to our school funds of something over \$500.00 on our present basis by the passage of this bill.

The possession of this extra sum of money would enable the town to turn its attention to a further extension of the work of the schools.

Within a few years the town should adopt for the

High School, either an Agricultural Course or a Mechanic Arts Course. The former would directly help train the boys to remain on the farm; the latter would give the boy's training in wood and iron working. Such a course would train boys to become skilled workmen in our local industries, and would give a knowledge of tools and their use on wood or iron for the future farmer.

It would also be possible to unite under the same instructor, manual training in the grades. There is not space in a report of this kind to explain either course fully, or my reasons for preferring one of these to a Commercial Course. I shall be very glad to give a public discussion of these points whenever the interest will warrant it. I shall also be glad to discuss it with individuals. With a clear outlook of what is coming, we shall be able to avoid duplicating expense or of missing opportunities to provide for the future at much less expense by taking advantage of circumstances as they arise.

At our school exhibition held last winter, the townspeople came in large numbers in spite of the stormy night. I wish to express my appreciation of the courtesies received in this and other ways from the community, and to thank the teachers and School Board for their willing co-operation in this important phase of our civic life for which we are all responsible to future citizens.

I hand you herewith reports of the High School Principal, and the Supervisor of Music.

Respectfully submitted,

F. C. JOHNSON.

FROM THE SUPERVISOR OF MUSIC

To the Superintendent of Schools :—

Music in the schools in Antrim is an innovation. To one who realizes the true value of music, this addition is most welcome. Music has real intellectual value. It requires concentration, form habit of accuracy, and as many are not used to hearing their own singing voices, it develops self control.

The singing of songs is really the aim of all music in the schools. But to sing songs well, the pupils must be able to read music accurately. This year I am convinced that the beginning of a good foundation in reading music has been laid, one that will last. The pupils have taken hold of the work in splendid shape. My teaching in Antrim, has been a real pleasure, made possible only by the hearty co-operation of both teachers and pupils.

Respectfully submitted,

HELEN D. DAGGETT,
Supervisor of Music.

FROM THE PRINCIPAL

Mr. F. C. Johnson, Superintendent:—

As one-half of the school year is over and the mid-year examinations completed, we feel more capable of judging the High School pupils' work than we should have felt ourselves capable of doing two months ago. The result of those examinations was in most cases very satisfactory.

We are glad to say that the attendance for the most part has been very good. We have had an average monthly attendance of about 94%. The pupils also have shown a willingness to work which is very encouraging.

At the beginning of the school year we had forty-three pupils enrolled upon our register. This is the largest number that the High School has had for some time and it is due to the fact that over 95% of the pupils attending school last year, returned this year.

The faculty of the High School was new at the beginning of the school year and of course the system of teaching was different from that of last year. It has been our effort and is still our aim, to give the pupil knowledge other than that which he gets directly from the text-book. Not that we would do away with the text-books; we must have them as a foundation, but we are trying to make the pupil think out things for himself. In other words, we are trying to have the students determine for themselves the cause and effect of things.

We have two courses of study, the Classical and the Scientific Course. About two-thirds of the pupils take this latter course, which is supposed to be the more practical. The Classical course meets the College requirements.

A few of the town's-people have been in to visit us and

it is our desire that more of them should stop in and see what kind of work we are doing. Especially we invite the parents, whose co-operation we desire.

As our school is one of the approved High Schools of the state, it will be our constant effort to keep it as such. Much of the success that we have had is due to the good work and co-operation of each of the several teachers. We are also grateful to our janitor for his efficiency in caring for our building.

LEROY MARSHALL HANDY, Principal.

LIBRARIAN'S REPORT.

Antrim, N. H., February 8, 1909.

Since the opening of the James A. Tuttle Memorial Library on July 11, the attendance has been most gratifying and interest continues to increase from week to week. Both reading rooms are well patronized on Tuesday afternoons as well as Saturday evenings and much interest is manifested by the students of the town schools to whom many books have been loaned for supplementary school work.

There has been a gradual change in the class of books loaned, the percentage of history, biography, science and travel is much higher than in previous years. A large number of works on history and travels are loaned each week to the members of reading clubs in town and the War Rolls, presented by the Town, are in great demand during library hours by those interested in the D. A. R.

Since the Tuttle library opened, the number of books loaned to February 1, was 3,955; the average number given out each week is a little over 141. The largest number loaned in one month was in August when 742 were loaned, the next highest number was 702, which is the record for January. There are over 620 who have taken out cards. The total number of books in the library is 4,403. Gifts of books have been received from the following: Hon. Wyman Kneeland Flint, Milwaukee, Wis.; Mrs. Kate Duncan Paine, New York City; Mrs. Edwin Parmenter, Boston; Miss Isabel Jameson, Miss Bessie C. Parmenter; Mr. Charles H. Martin, Antrim;

Miss Ethel Whitcomb, Roxbury, Mass.; Mrs. Sarah Boyd Camp, Connecticut; G. J. Turnbull, New York City; Hon. James Brennan, Peterborough; George Bufum, Newton, Mass.

The tables of the reading rooms have been generously remembered by friends, the following have given magazines and papers which have been eagerly read from week to week by the children and young people of the town: Miss Emma S. McCoy, Mrs. Lucretia Shaw, H. Webster Eldredge, Mrs. Melvin D. Poor, Mrs. William E. Cram, Fred C. Parmenter, members of the local W. C. T. U., and Mrs. Edwin T. Adams. The "Scientific American," given by an unknown friend, is a welcome weekly paper that is much read by the young men of the town. Three handsome pictures have been received from an unknown friend and have been hung in the main and children's reading room. A pair of antique iron andirons over 100 years old have been donated the library by Mrs. G. E. Hutchinson and have been placed in the fireplace of the adult reading room. Several gifts have been received for the historical room of the library.

The interest in the library was never better than it is today and the young men and women of the town, as well as the older portion of the community are its regular patrons.

S. M. ADAMS,

Librarian.
